

Arena Snake Student Workout Instructions

Introduction

Welcome to the Arena Snake workout! In this workout, you will understand security issues with developer tools. You will use the developer tools for your browser to interact with data from the web server's back-end in order to beat an impossible game.

Your Mission

- Open the link to Arena Snake at https://arena-snake-loader-v7k2apwaqa-uc.a.run.app/arena_snake
- Try to beat the Snake game and notice the scoring system
- Open the developer tools (inspect element) and investigate the file directories
- Change local data to bypass the scoring system
